## Fire Warden/Marshall Course

### Why choose us?

The course has been designed by and is delivered by instructors that have had full careers in the fire service with extensive expertise in the roles of fire fighting, training and fire safety enforcement.

This we know gives an unparalleled degree of professionalism and authenticity to the course that cannot be replicated by non fire service serving personnel.

Using the latest presentation technology, personal experiences (gained from fire service careers of 25 years plus), anecdotal evidence, visual aids and video footage, the instructors will deliver the course material with unparalleled enthusiasm and commitment to ensure that your staff are made fully aware of the REAL dangers imposed by fire and not those depicted on the screen!!!!

All our courses have been fully risk assessed and full protective equipment is provided where required.

### Who should attend this course?

The fire warden/marshall training course is valuable for all employees that have areas of fire safety or health and safety responsibilities including management.

### Course overview

This course is of 4 hours duration designed to give the students a greater understanding fire safety, the dangers from fire and smoke, how to safely deal with a small fire and ensure safe evacuation.

All students will have the opportunity to safely operate a range of portable fire extinguishers on our modern fire fighting demonstration units.

### Aims and objectives

By the end of the course, the students will:

- ✓ Understand the causes of fire, basic fire prevention and be able to identify fire hazards in the workplace
- ✓ More fully understand the dangers of fire including the speed of spread and its development
- ✓ Understand the action to be taken upon discovering a fire and be able to select and use a range of fire fighting equipment
- ✓ Have an awareness of human behaviour in fire situations
- ✓ Understand the importance of maintaining fire safety measures and staff training and how failings in these or fire safety management can quickly lead to confusion, injuries, possibly fatalities and loss of business.

### Location and Fees

The course can be delivered at a suitable location for learning either at the workplace or at a mutually convenient external location.

Course fees start from £25.00 per person (subject to the number of students). If the course is required to be delivered at an external venue then additional costs may be incurred due to hire charges.

All students that undertake this course will receive a certificate of attendance detailing the understanding acquired and skills attained and a short reminder guide of the course content.

Please contact us for a prompt competitive quotation for your fire training requirements.
